About Me

As a Front End Developer with a proven track record in the website development, I possess advanced skills in HTML, SASS, CSS, jQuery, and JavaScript, including expertise in libraries such as ReactJs and Redux. Additionally, I am experienced in developing on popular platforms like Shopify and WordPress. Furthermore, I am currently expanding my knowledge base to encompass back-end technologies, including PHP, Go (Golang), and SQL. With a Bachelor's degree in Information Technology, I am a skilled and dedicated engineering professional.

Work Experience

Front End Developer
Digital Poin8
Mar 2018 - Feb 2023

- Developed and maintained responsive websites and web applications using HTML5, CSS3, and JavaScript, adhering to industry standards and best practices.
- Collaborated with UI/UX designers and back-end developers to implement features and ensure seamless integration with the back-end system.
- Worked with version control systems such as Github to manage code changes and facilitate team collaboration.
- Optimized website performance by optimizing code, images, and other assets to reduce page load times and improve user experience.
- Debugged and resolved cross-browser compatibility issues to ensure the website/application worked as intended on all major web browsers.
- Utilized various front-end frameworks and libraries, such as Bootstrap, React to speed up development and improve scalability.
